Risk Levels	Little to None	Minor	Moderate	Major	Extreme
-------------	----------------	-------	----------	-------	---------

Weather Key Points

Regional Operations Center

Western Region

Saturday, November 5

- North to northwest winds of 25 to 35 mph, gusting 45 to locally 55 mph will be seen across the Ventura, Los Angeles, and Santa Barbara County Interior mountains as well as the Antelope valley, mainly west of Highway 14 through late Saturday evening. Gusty southwest winds up to 50 mph will also be noted across Modoc County through Saturday evening.
 - These winds will bring locally elevated fire weather conditions for the southern California mountains and foothills through Saturday evening
- A prolonged atmospheric river event will impact much of the state Saturday through Wednesday, bringing low elevation rain, heavy mountain snow, and periods of gusty winds
 - Localized mainly nuisance flooding possible across northern and central California due to periods of heavier rainfall. However, a greater threat for mudslides and rockslides may exist in the Sierra foothills Monday and Tuesday if heavy rainfall becomes more widespread
 - Thunderstorms are also possible at times Monday and Tuesday. These storms may bring locally even heavier rainfall along with accumulating small hail that could bring slick travel.
 - Significant mountain snow accumulation of 1 to locally 4 feet is expected Sunday evening into Wednesday morning, even in the southern California mountains. Very difficult travel conditions are likely with chain controls, road closures, and low visibility due to a combination of wind and heavy snow, with the greatest impacts in the Sierra.
 - Snow levels will lower throughout the storm, reaching as low as 3,000 feet across northern California and 4,000 feet over the south by later Tuesday and Wednesday.
 - Gusty winds of 35 to locally 50 mph will also accompany the snow in the Sierra on Monday, with similar gusty winds of 25 to 40 mph expected over the southern California mountains Tuesday
 - Very cold temperatures will follow the storm Thursday and Friday

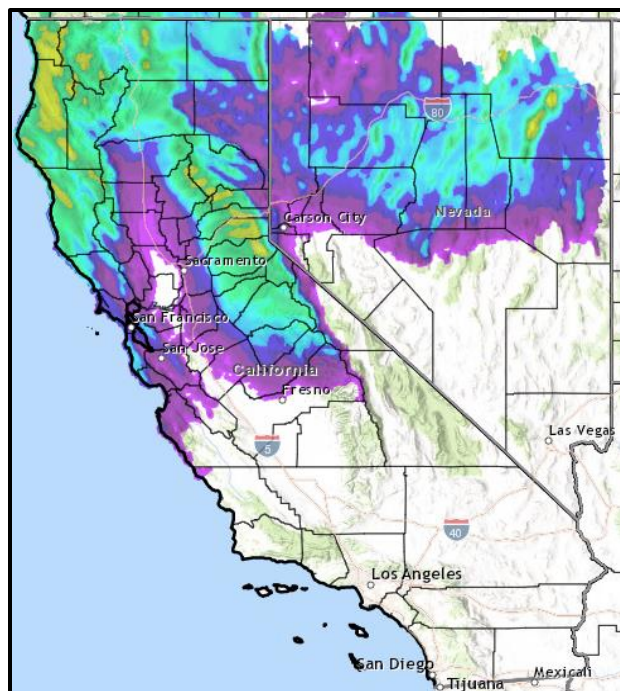

Precipitation Forecast

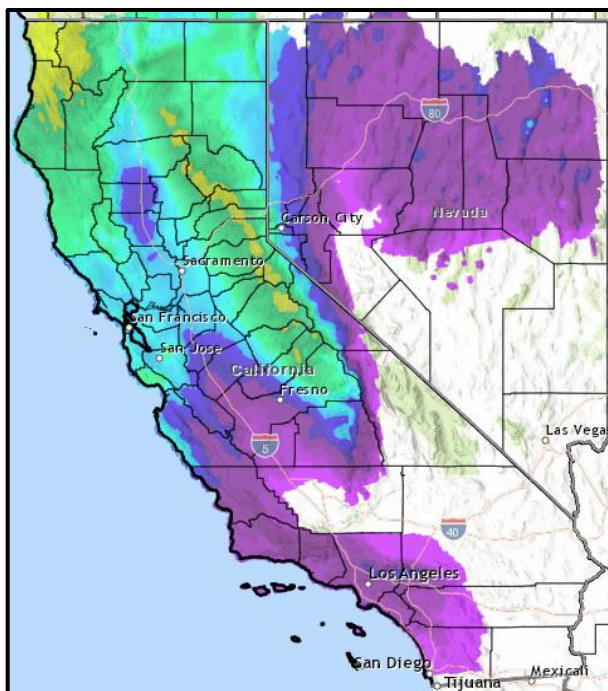

Regional Operations Center

Western Region

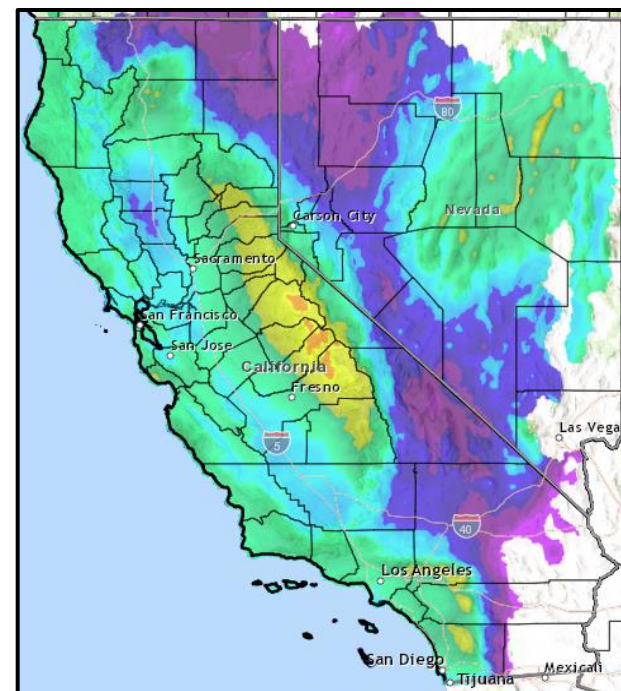

Saturday, November 5

Saturday

Sunday

Monday

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

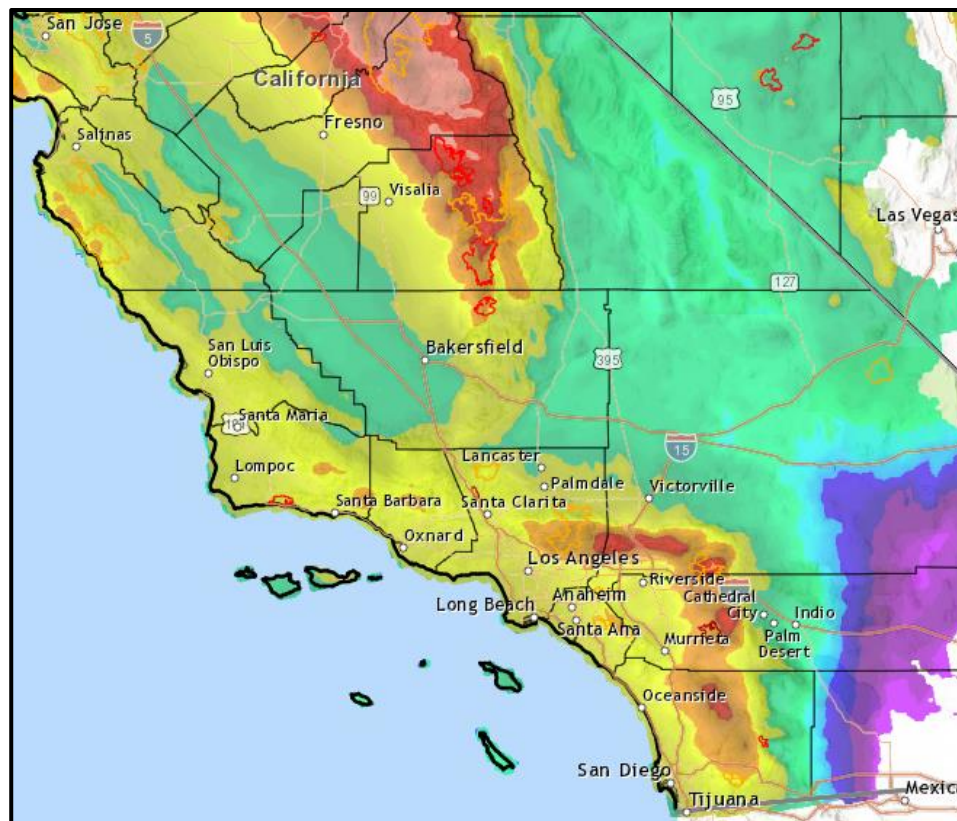

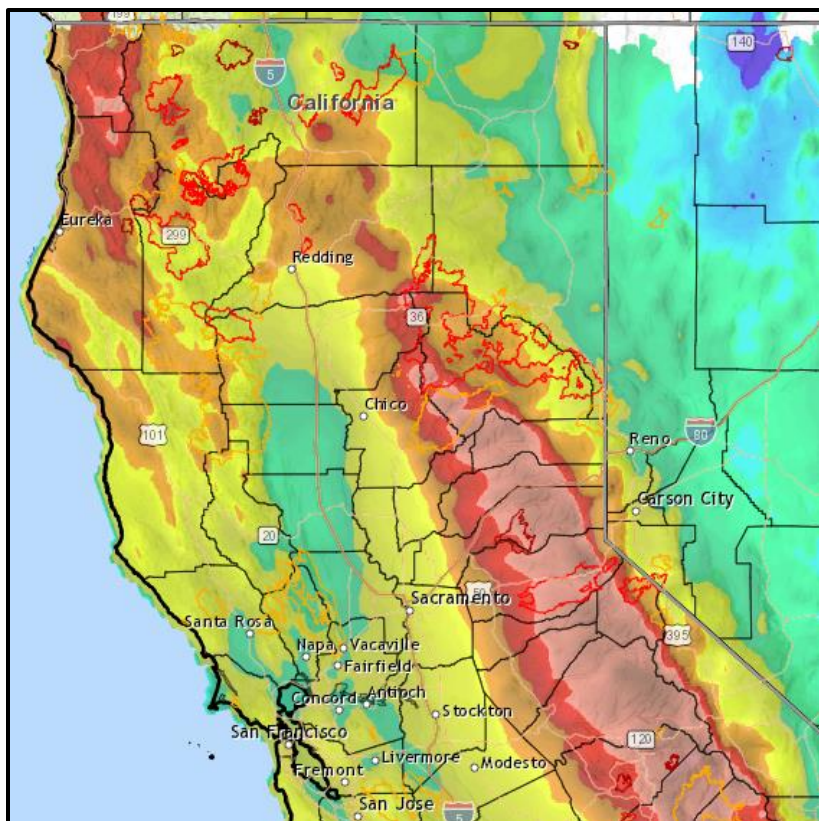

Precipitation Forecast

Saturday, November 5

Storm Total Precipitation Forecast (Saturday-Wednesday)

Burn scars are overlaid. At this time, no particular burn scars are of high concern but some mud or rock slides could occur during periods of heavier rainfall rates.

Precipitation (inches)

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Saturday, November 5

6-10 Day Outlook (November 10 - 14)

Temperatures

- Below normal temperatures are favored to continue statewide

Precipitation

- Near normal precipitation is favored for much of the state, with the exception of the Sacramento Valley and Bay Area where above normal precipitation is slightly favored

8-14 Day Outlook (November 12 - 18)

Temperatures

- Below normal temperatures are again favored across the state

Precipitation

- Above normal precipitation is favored across a small portion of northern California (mainly for the Sacramento Valley and Bay Area), while below normal precipitation is favored across far southern California. For the remainder of the state, near normal precipitation is favored heading into mid November.

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

2022 May Monkeypox Virus

On 08/01/22, the Governor proclaimed a State of Emergency to support the State's response to Monkeypox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to the 2022 May Monkeypox Virus event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.

Emergency Management Assistance Compact (EMAC)

- Nothing significant to report.

Cal OES INLAND REGION

Power Outage Event, Bakersfield, Kern County (Initial/Final)

On 11/04/22 at 2341 hours, FEMA Region 9 contacted the California State Warning Center with questions regarding a power outage in Bakersfield, Kern County, that was impacting 17,000 people. On 11/05/22 at 0242 hours, the power outage increased to approximately 50,000 customers due to trouble at a PG&E substation.(Restored).

- CUEA has made contact with PG&E who advised that the cause of the outage is trouble in one of their substations.
- PG&E recourses were on scene and evaluating the extent of the condition and working on switching options to restore the power.
- Per Inland Duty Officer there no unmet needs and Kern County Sheriffs Office there were no unmet needs and no impact to law enforcement operations.
- On 11/05/22 at 0943 hours, the CUEA notified the Warning Center that power outages has been restored.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Major League Soccer Cup Final, Los Angeles County

- On 11/05/22 at 1900 hours, the championship match between Los Angeles Football Club (LAFC) and the Philadelphia Union will be held at Bank of California Stadium, Los Angeles County.

SITUATION SUMMARY

Cal OES COASTAL REGION

Cal OES SOUTHERN REGION

Major League Soccer Cup Final, Los Angeles County

- On 11/05/22 at 1900 hours, the championship match between Los Angeles Football Club (LAFC) and the Philadelphia Union will be held at Bank of California Stadium, Los Angeles County.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated at Level 1 in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 10/17/22, Governor Newsom unveiled the "[California Smarter Plan Updates October 2022](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions. Governor Newsom is set to lift the State of Emergency in early 2023, and this update provides information on California's progress to date and how we move forward.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 10/26/22 at 1630 hours:

- 10,499,008 total confirmed cases.
 - 22,066 Delta
- 96,068 total deaths.
 - 260 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.
